

Sustainable Financing for Sustainable Farms: Adapting to Change.

**MONDAY 16TH FEBRUARY
AT 19:00**

Based in East Sussex and having grown up on the South Downs within an established mixed farming family business, Justin Ellis fully understands the challenges and opportunities that farming estates and rural businesses face.

After graduating from Newcastle University, Justin worked in various farming sectors across the South and East of England, including managing the family dairy farm, and broadened his farming experience in Australia, New Zealand and Zimbabwe. His career in agricultural banking began with the Bank of New Zealand and he joined Clydesdale Bank (now Virgin Money) in 2011.

Justin will talk us through some economic context for farmers and the opportunity for low carbon agriculture and banking, as well as some thoughts on adapting to change – something that Justin is more used to, working for corporates, but in a post subsidy world will become even more important for food producers.

We look forward to seeing you there – and feel free to invite a friend / colleague / partner etc. too who also might be interested.
