CLIMATE CHANGE & WEATHER TRENDS IMPACTING FARMING IN THE UK

with Mark Rogers,
Met Office Adviser

Mark Rogers,
Met Office Advisor

Mark works with emergency responders across SE England. His main role is around severe weather, but he also provides increasingly important information around the changing climate. During his talk, Mark will look at how the climate across the world, including the UK, has changed and what future changes might look like as we go through the next 50 to 100 years.
